-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☐ Responsive to communication(s) filed on \_\_\_\_.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-11 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 recites that the front and rear portions "may be moved" adjacent to portions of the central portion. This language is ambiguous, as it denotes optional method steps, which would be indefinite. Amendment of the language to "adapted to be moved" or some similar language, to more clearly indicate that each piece is capable of being moved in the manner claimed, is suggested.

Also, in claims 3 and 4, "each of" should be inserted between "identifying" and "the front, central and rear countertops" to make clear that each portion has an alphanumeric designation. As written, it appears that a single alphanumeric character identifies all three portions, which is contrary to the invention as disclosed in the specification and drawings.

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

Art Unit: 3714

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1 and 2 are rejected under 35 U.S.C. 103(a) as being unpatentable over Pederson. Pederson discloses in Figures 1 and 3 a method of facilitating visualization of a countertop profile comprising the steps of providing a central portion, and a plurality of "front" and "rear" portions (depending on how the device is viewed), and selecting adjacent countertop portions. Figure 3 shows a truncated L shaped portion labeled "BLS 36" and an adjacent portion "DR 18", such that a full countertop profile is displayed. While a second adjacent portion is not disclosed, such a configuration would have been obvious, given that the purpose of Pederson is to allow a user to create different configurations of modules to simulate a living space such as a kitchen.

### ***Allowable Subject Matter***

Claims 3-11 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

The following is a statement of reasons for the indication of allowable subject matter: The steps recited in claim 3, including the use of a single alphanumeric indicator for each portion, is not disclosed or suggested. As discussed by applicant, this feature allows a user to easily specify a complete countertop profile using three characters. With respect to claim 5, the structure

Art Unit: 3714

recited is also not disclosed or suggested. Pederson discloses a completely different structure, which allows for free movement of various types of modules, and does not suggest a self-contained device specific to countertops, as claimed. As a result, claims 3 and 5 and their dependent claims contain allowable subject matter.

### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Armbright, Pinney, Levitas, Pinney, McKee, Feagan, Wright, Brimberg and Bach disclose various devices for modeling living spaces and their contents, including kitchens and countertops.
